

Safeguarding Policy

Walthamstow Montessori School

(Referred to as WMS throughout)

Developed by:	In conjunction with LBWF Safeguarding Team and Wendy Palumbo, Head of School, WMS
Updated on:	30th September 2023
Review date:	1st September 2024

This policy will be reviewed and ratified at a minimum annually and/or following any updates to national and local guidance and procedures.

Key Setting Information

Name of Setting	Walthamstow Montessori School
Setting Main Phone Number	020 8523 2968
Setting Main Email	office@walthamstowmontessori.com
Setting Address	Penrhyn Hall, Penrhyn Ave, E17 5DA
Designated Safeguarding Lead	Wendy Palumbo, Head of School safeguarding@walthamstowmontessori.com
Deputy Designated Safeguarding Lead	Karen Darnborough, Class Teacher
Named Person for Allegations against staff & volunteers (ASV)	Lorna Mahoney, Principal
SENCo / Special Needs Lead	Acting Lead Wendy Palumbo, Head of School
Headteacher / Principal	Lorna Mahoney, Principal & Owner
Advisory Chair	Philip Parry
Advisory Safeguarding Lead	Hayley Hobson

Introduction

Walthamstow Montessori School – safeguarding policy 2023-2024.

This policy is underpinned by the Department for Education (DfE) updated version of the statutory guidance Keeping Children Safe in Education (KCSIE) 2023.

Keeping Children Safe in Education 2023 is statutory guidance and applies to all schools and colleges. Schools are defined as “all schools whether maintained, non-maintained or independent schools (including academies, free schools and alternative provision academies), maintained nursery schools and pupil referral units”. Colleges means “further education colleges and sixth-form colleges as established under the Further and Higher Education Act 1992 and institutions designated as being within the further education sector. Colleges also includes ‘providers of post 16 Education as set out in the Apprenticeships, Skills, Children and Learning Act 2009 (as amended): 16-19 Academies, Special Post-16 institutions and Independent Training Providers.” (KCSIE 2023)

There is an expectation that staff have understood rather than just read updated KCSIE 2023.

A link to the full version of KCSIE 2023 can be found here - [Keeping children safe in education 2023 - GOV.UK](#)

A copy of Annex A is also available on the above link.

Purpose & Scope

Our Commitment to Safeguarding

We believe that all children have a right to be safe and should be protected from all forms of abuse and neglect.

Although reporting concerns can be uncomfortable for staff, and be unpleasant for families, as a school, we recognise that it is better to help children, young people and their families early, before issues escalate and become more damaging.

Because safeguarding is everyone's responsibility, all staff is committed to recognising and reporting all concerns relating to child safety, wellbeing and in particular are vigilant to spot signs of abuse and maltreatment.

As such, at Walthamstow Montessori School (WMS) we promise to:

- Be observant and alert to signs of abuse
- Be curious and question explanations given by parents / children / staff
- Be compassionate, honest and clear
- Ask for support when we feel at the limit of our experience / patience / skills
- Understand and follow school policies and procedures
- Work together with other agencies when appropriate to make sure that support for children, young people and families is effective and helps improve outcomes.

Children and young people learn and thrive best when they are healthy, safe and secure, when their individual needs are met, and when they have positive relationships with the adults caring for them.

WMS aims to offer an environment where children feel welcome, safe, stimulated and where children are free to enjoy learning and developing in confidence.

The **purpose of this policy** is to safeguard and promote the welfare of children at WMS.

The Statutory Framework for the Early Years Foundation Stage 2023, <https://www.gov.uk/government/publications/early-years-foundation-stage-framework--2> sets out the standards for learning development, assessment and the safeguarding and welfare requirements which all Early Year's providers must meet in order to ensure the children in their care learn and develop well and are kept healthy and safe.

To meet this requirement, WMS will ensure that all our staff is trained to understand the settings safeguarding policy and procedures and that they have up to date knowledge of safeguarding issues which will enable them to identify the signs and symptoms of possible abuse.

WMS' Safeguarding policy of 30th September 2023 applies to all staff, including paid staff, volunteers, sessional workers, agency staff, one-off visitors, students or anyone working on behalf of the setting.

The aim of the school's safeguarding and child protection policy at Walthamstow Montessori School (WMS) is to provide all staff, visitors, volunteers and advisory panel members with a framework which will enable them to safeguard and promote the welfare of all children in the setting.

Safeguarding and promoting the welfare of children is defined for the purposes of this policy as:

- Protecting children from maltreatment
- Preventing impairment of children's mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes.

In order to take all necessary steps to keep children safe and well, WMS will:

- Ensure our approach is child-centred, considering always what is in the best interest of the child.
- Safeguard children both preventatively and responsively
- Ensure the suitability of adults who have contact with children
- Promote good health, effective management of medical conditions, and the development of self-care in children & young people
- Have clear standards of behaviour for staff / volunteers and children / young people
- Manage behaviour by anticipating possible concerns, prevention strategies, and clear, fair responses to challenging behaviour
- Maintain records that document safeguarding concerns over time, including low-level worries about a child or young people that together may paint a picture of concern
- Ensure that all policies and procedures relating to safeguarding and wellbeing are updated annually in collaboration with the board of governors (or similar).

Note: Children includes everyone up to the age of 18 years of age

Legislative & Guidance Framework

Under section 10 of the Children Act 2004, all maintained schools, further education colleges and independent schools, including free schools, academies and early years providers, are required to cooperate with the local authority to improve the well-being of children in the local authority area.

Under section 40 of the Childcare Act 2006, early years providers registered on the Early Years Register and schools providing early years childcare, must comply with the welfare requirements of the Early Years Foundation Stage

This Safeguarding policy and procedures have been developed in accordance with the principles established by the Children Act 1989; and is in line with the following statutory and departmental guidance:

- Statutory Framework for the Early Years Foundation Stage 2023

Who is responsible for Safeguarding?

No single professional can have a full picture of a child’s needs and circumstances.

This policy applies to all staff, including paid staff, volunteers and sessional workers, agency staff, organisations contracted to deliver services within school, one-off visitors, students or anyone working on behalf of **WMS**.

This policy relates to all children (anyone up to their 18th birthday) with whom WMS works.

This policy will be readily available via our website **www.walthamstowmontessori.com** for professionals, parents and partners as well as on school site upon request.

Updates will be disseminated to all staff via emails and safeguarding briefings and updates, which are provided on all staff training days.

The policy will be given to parents prior to children commencing and following each update by email. Support and consideration will be given to those parents for whom English is not a first language.

All staff and volunteers must read, understand and put the policy into practice. Furthermore, all staff must read the statutory guidance Keeping Children safe in Education 2023 (reviewed September 2023) and Working Together to Safeguard Children (2018). The DfE departmental guidance ‘What to do if you’re worried a child is being abused (2015) is also highly recommended.

To ensure the safety of the children at WMS, we have procedures in place for recording the details of visitors and the purpose of their visit to our setting. The security procedures in place ensure that the possibility of unauthorized persons having access to the children is minimized. Under not circumstances will visitors/contractors be allowed unsupervised access to the children. Visitors/contractors will always be supervised whilst on the nursery premises, especially when in the areas the children use. In addition to these arrangements we ask that parents do not open or hold the door for other persons to gain access to the building without being vetted by staff.

Designated Safeguarding Lead (DSL)

The DSL and deputy DSL (DDSL) will receive ongoing training and refresher training in all areas of the role. Proprietor with Lead responsibility for Safeguarding will ensure that both persons appointed as DSL and DDSL are trained to the same standard. Both the DSL & DDSL will be given the appropriate authority, time, funding, training, resources and support to provide advice and support to other staff on child welfare and child protection matters.

The lead DSL's has ultimate responsibility which is safeguarding & child protection.

During term time the DSL and/or DDSL will always be available during school hours for staff in the school to discuss any safeguarding concerns. In the first instance the DSL should be contacted. When the DSL is unavailable, staff will be provided with this information and delegated first contact. This may be the DDSL or Principal (Lorna Mahoney). This will include over the weekends/school holidays in the event of an emergency.

At WMS the Designated Safeguarding Lead (DSL) Wendy Palumbo, who has a specific operational responsibility for implementing the organisations safeguarding and child protection policies and procedures. If Wendy Palumbo is unavailable, to ensure safeguarding matters are dealt with promptly Karen Darnborough our DDSL will be available to cover the DSL duties.

To safeguard children our Designated Safeguarding Lead Wendy Palumbo and our DDSL Karen Darnborough will undertake formal DSL training at a minimum every two years. This will be to equip and provide them both with the knowledge and skills required to carry out the role of the DSL and support staff. In addition, the DSL and the DDSL will attend regular DSL forums and will access safeguarding updates into developments and training relevant to the role of the DSL including managing allegations and managing thresholds.

The Proprietor

Although DSLs Wendy Palumbo and Karen Darnborough take responsibility for Safeguarding at WMS, the Principal (Lorna Mahoney) is ultimately responsible for all the children at WMS.

The Principal, Lorna Mahoney, should be contacted immediately, if possible, harm (emotional, physical, sexual, neglect) to a child or young person has been caused by a member of staff or volunteer.

Obligatory practice for ALL staff

At WMS we recognise that we as individuals:

- Are responsible for safeguarding
- Must be able to identify the signs and symptoms of abuse
- Must be able to identify concerns (Early Help / Child in Need / Child Protection / Allegations Against professionals
- Aware that children's poor behaviour may be a sign that they are suffering harm or that they have been traumatised by abuse.
- Understand that children who have a social worker may be educationally disadvantaged and face barriers to attendance, learning, behaviour and positive mental health.
- Understand that mental health issues for children may be an indicator of harm or abuse, or where it is known that a child has suffered harm or abuse this may impact on their mental health, behaviour and education.
- Understand that safeguarding incidents and/or behaviours can be associated with factors outside the setting and/or can occur between children outside of these environments.
- Must be familiar with internal reporting procedures and processes (reporting safeguarding concerns to DSLs, and allegations only to Proprietor/similar)

- Must refer concerns to children's social care in the absence of Designated Safeguarding Leads (DSL)
- Must ensure that all safeguarding concerns are shared promptly with DSLs
- Must be able to challenge professional safeguarding decisions internally/ externally with other agencies
- Must refer/ escalate a case if we disagree with the DSL not to refer, with respect and transparency
- Must be able to whistle blow when required
- We are also aware as individuals regardless of where we work within our setting that we are responsible for reading and reviewing the safeguarding policies of WMS.

Equality Statement

We are committed to contributing to a fairer society by promoting equality and good relations for children, young people, parents and carers, partner organisations, staff and job applicants. We believe in giving every individual the opportunity to fulfil their potential. We are committed to treating all individuals with respect and dignity.

Research clearly shows that **diversity in safe environments** produces more creative and effective work products than homogenous groups. We recognise that differences and diversity enrich society and practice, and celebrating diversity is always at the heart of our practice.

All staff is committed to anti-discriminatory practice, and to giving all children and young people the same offer of support, response and protection regardless of:

- Age
- Cultural identity
- Disability / ability / SEND
- Ethnicity
- Financial status
- Gender
- Gender identity (e.g., Trans / gender nonspecific)
- Gender reassignment status
- Health status (e.g., mental health / HIV / substance misuse)
- Housing status
- Immigration status
- Political beliefs
- Pregnancy / maternity / parenthood
- Sexual orientation (e.g., LGBTQ)
- Social class
- Social status
- Relationship status
- Religion / beliefs

Post Covid-19

Early years settings are responsible for safeguarding, caring, and supporting the development of, children who attend as set out in the Statutory framework for the early years foundation stage (EYFS). With this regard, on 1 April 2022, the government moved into a new phase of its Covid-19 response: 'living with Covid'. As a result, the Actions for early years and childcare providers during the coronavirus (COVID-19) outbreak guidance has been withdrawn, with providers now directed to the broader Emergency planning and response for education, childcare, and children's social care settings guidance.

This guidance advises, 'All education, childcare, and children's social care settings should have emergency plans in place detailing what and how they would respond if they needed to take any temporary actions in the event of an emergency'. As part of our emergency plan, we will continue to work with our partner agencies and services to actively look for signs of harm, given the greater risk of harm some children may be exposed to because of the coronavirus (COVID-19). In the case of vulnerable children and particularly those with social workers, we as an early year's setting will continue to encourage those children to attend regularly and will notify their allocated social worker if they stop attending.

Partnership with Parents and Others

WMS shares a purpose with parents to educate and keep children safe from harm and to have their welfare promoted. We are committed to working with parents positively, openly and honestly. We ensure that all parents are treated with respect, dignity and courtesy. We respect parents' rights to privacy and confidentiality and will not share sensitive information unless we have permission or it is necessary to do so in order to protect a child.

WMS will, in most circumstances, endeavour to discuss all concerns with parents about their children. However, there may be exceptional circumstances when WMS will need to discuss concerns with Social Care and/or the Police without parental knowledge (in accordance with the London Child Protection procedures). WMS will, of course, always aim to maintain a positive relationship with all parents. Our child protection policy is available on request.

Partnerships with others

WMS will work in partnership with all agencies i.e. LBWF Safeguarding in Education & Local Authority Designated Officer (LADO) service, Early Help, Multi-Agency Safeguarding Hub (MASH), Social Care, Health and the Police to ensure the children's safety and welfare is always paramount. We/I will also seek to establish effective working relationships with both parents, carers and other colleagues so that we can develop and provide activities and opportunities that will enable and equip the children in our care with the necessary skills that they will need to develop protective behaviours and life skills to keep themselves safe from harm.

The voice of the child

All staff will endeavour to ensure that their approach is child- and family-centred. This means that they will consider, at all times, what is in the best interests of the child, and how to approach families with compassion and respect.

Staff will always seek to understand and give voice to the lived experience of a given child and young person within our school, at home and within their wider community, even if children and young people are unable / unwilling to express their experience themselves.

Safer Recruitment and Selection

We are an equal opportunity employer and are committed to using non-discriminatory procedures in our

recruitment process, to ensure all candidates who apply for employment at WMS are treated fairly and that we recruit people who are suitable to fulfil the requirement of their role.

To recruit we pay regards to

the [Keeping Children Safe in Education 2023](#) and the [EYFS 2023 3.9, 3.10, 3.12](#) and [Criminal record checks for childminders and childcare workers](#) and the the https://www.londonsafeguardingchildrenprocedures.co.uk/#seventeen_one_twelve

To prevent unsuitable people working with children in our setting we have put in place a robust safer recruitment procedure.

All individuals working in any capacity at WMS will be subjected to safeguarding checks in line with the statutory guidance Keeping Children Safe in Education: Statutory Guidance for Schools and Colleges, September 2023. WMS will ensure that agencies and third parties who supply staff (temporary) to us provide us with written reassurance that they have made the appropriate level of safeguarding checks on the individuals prior to them engaging in working in our setting. We will also ensure that any agency worker presenting for work is the same person on whom the checks have been made.

We will ensure that alternative provision providers provide written reassurance that they have made the appropriate level of safeguarding checks on individuals working for their organisation.

In recruiting staff, we will ensure that every job description and person specification have a clear statement about the safeguarding responsibilities of the post holder which is to safeguard and promote the welfare of children

To recruit staff, we will ensure that at least one member of every interview panel has completed safer recruitment training and:

- All candidates will be subjected to qualification and identity checks
- An enhanced DBS certificate which includes barred list information check will be undertaken for all candidates
- All records will be kept which relate to the employment of staff and volunteers, thus demonstrating that checks have been undertaken, including the date and number of the enhanced child barring DBS and CRB check.
- We will obtain a minimum of at least two references for all potential new staff and volunteers
- All new staff are required to produce documentation that confirms they have the right to work in the UK.
- All permanent appointments to WMS will be subject to a probationary period of 6 months.
- All staff and or volunteers will be fully inducted into the setting with regards to understanding the safeguarding policy and procedures of the setting and will be trained to identify signs and symptoms of possible abuse EYFS 2023, 3.16

All Staff are expected to disclose any convictions, cautions, court orders, reprimands and warnings which may affect their suitability to work with children-whether received before, or at the point of recruitment

For staff including volunteers who work in our childcare provision or who are directly concerned with the management of such provision we will ensure that appropriate checks are carried out to ensure that individuals are not disqualified under the Childcare (Disqualification) Regulations 2009”.

Disqualification by Association

Disqualification ‘by association’ means that you could be disqualified from providing childcare in a childminding setting because an offence or offences have been committed by someone who lives in your household.

From the 31st August 2018, changes were made to the childcare disqualification arrangement. These changes reflected in removing the ‘disqualification by association’ element from schools and other non-domestic settings. However, disqualification by association is still relevant where childcare is provided in domestic settings (for example where childminding is provided in the home) or under registration on domestic premises, including where an assistant works on non-domestic premises up to 50% of the time under a domestic registration.

Full details of the recruitment procedures are set out in our safer recruitment procedure document

Identifying Abuse

Being alert to abuse and to the fact that ‘it could happen here’ is crucial to safeguarding:

- An abused child will often experience more than one type of abuse, as well as other difficulties.
- Abuse reduces resilience in children and puts them at further risk of abuse throughout their lives.
- Abuse and neglect can happen over a period of time, but can also be a one-off event.
- Child abuse and neglect can have major long-term impacts on all aspects of a child's health, development and well-being.

The DSL will ensure that all new members of staff, volunteers and students are given an induction into the setting that will include the following:

Issue and explain the safeguarding and child protection policy

Issue and explain the behaviour policy of the setting

Issue and explain the staff behaviour policy/code of conduct

Explain the role of the DSL and share the identities of the DSL and all DDSLs

Child protection and safeguarding training (including online safety) (within 1 month of starting)

All new members of staff, volunteers and students are expected to read the above-mentioned documents and to sign an acknowledgement of this.

Staff code of conduct

All staff, visitors and volunteers will be provided with a copy of the school's Code of Conduct Policy. Staff will be asked to read and understand and sign to confirm acceptance of this policy and expected behaviours.

All staff, volunteers and students are responsible for safeguarding and promoting the welfare of children and young people. This responsibility extends to a duty of care for those adults employed, commissioned or contracted to work with the children. These adults who work with children are responsible for their own actions and behaviour and should avoid any type of conduct which would lead any reasonable person to question their motivation and intentions.

WMS will ensure that all concerns about adults working at WMS are dealt with promptly and appropriately. This will include responding to low level concerns which do not meet the harm threshold as set out in this policy in the section below - managing allegations.

A 'Low level concern' is defined in Keeping Children Safe in Education 2023 (KCSIE) as a concern that causes *'unease or nagging doubt- that an adult working in or on behalf of the 'setting' that may have acted in a way that*

- Is inconsistent with the staff code of conduct, including inappropriate conduct outside of work
- Does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the LADO

At WMS all staff will work and be seen to work, in an open and transparent way. We will ensure that this professional standard is applied to all children and families regardless of culture, disability, gender, language, racial origin, religious belief and/or sexual identity.

At WMS our staff will:-

- Be approachable and friendly, while still being objective and professional and not blurring relationship boundaries.
- Offer advice and support to parents in a respectful way, including initiating possibly difficult discussions, directing parents to other relevant services and making appropriate referrals.
- Share the safeguarding policy with parents and how the information will be shared with professionals.
- Focus on the care and development of each individual child, not making comparisons with other children or breaching confidentiality.

Staffing Policy

- At WMS we acknowledge the contribution to safeguarding the Key Person role can make in ensuring that all children in the setting feel safe, secure and assured that they will be listened to, and appropriate action taken should they feel or become unsafe.
- The setting will make every attempt to deploy the Key Persons so that they are with their Key children as much as possible.
- The Principal of the setting will ensure that all staff are effectively deployed throughout the day to meet the statutory requirements of the Statutory Framework for the Early Year's Foundation Stage and meet the needs of all children and ensure their safety. We will endeavour to provide additional staffing to

ensure key times during the day e.g., arrivals and settling in children are covered effectively to meet the needs of the children. We will also ensure that there is always one member of staff in the group who possess a full and relevant level 3 qualification. Staff will be deployed to ensure children are adequately supervised (including whilst eating) within the sight and hearing of an adult.

- Should there be times that we become short of staff, first we will rearrange the grouping of the children with a view to seeing if we can still safely meet the children's needs and the minimum ratios. Where this is not possible, we will enlist the services of vetted childcare agency staff. In doing so we will ensure that all agency staff prior to working with the children will be inducted into the settings policies and procedures and that they will work closely with another senior member of staff to provide consistent care for the children.

Supervision of staff

To ensure staff are supported and developed to effectively carry out their role in protecting and safeguarding children in their care the settings practice is led by Principal who is qualified. This Principal has the responsibility for ensuring that procedures are in place for all staff to receive regular formal supervision that will provide staff with an opportunity to review their performance, practice and development in working with the children and their families.

The supervision staff access will provide opportunities to:

- discuss any issues – particularly concerning children's development or wellbeing, including child protection concerns
- identify solutions to address issues as they arise
- receive coaching to improve their personal effectiveness

DBS Referrals

We as an employer of practitioners and volunteers in regulated activity will make a referral to the DBS when the conditions for doing so have been met.

We have a legal duty to refer any person engaged to work in regulated activity at WMS where an allegation has been substantiated, or where the harm test has been met, irrespective of whether another body has made a referral to the DBS in relation to the same person; failure to do so is an offence.

A DBS referral can and will take place at any time during the Allegations / Disciplinary process and will take place at the earliest stage possible. Circumstances may arise in which we consider that we should make a referral in the interests of safeguarding children or vulnerable adults even if we have not removed the person from working in regulated activity; this could include acting on the advice of the police or a safeguarding professional, or in situations where we don't have enough evidence to dismiss or remove a person from working with vulnerable groups. Making DBS referrals where the referral conditions are not met, will be done in consideration of relevant employment and data protection laws.

When employing supply staff, both WMS and the agency have a responsibility to refer as above. If an allegation is made against the DSL of our setting, the matter should be brought to the attention of the Deputy DSL or the manager of the setting or the registered person.

full procedures for dealing with allegations against staff can be found in Keeping Children Safe in Education 2023.

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1007260/Keeping_children_safe_in_education_2023.pdf

Further information and guidance on making DBS referrals can be found on the link below

<https://www.gov.uk/guidance/making-barring-referrals-to-the-dbs#should-i-make-a-referral-when-an-allegation-is-first-made-or-when-i-temporarily-suspend-someone>

Food safety

WMS will ensure that we take all necessary steps to keep children safe and well. Before a child is admitted to the setting, we will obtain information about any special dietary requirements, preferences, and food allergies that the child has, and any special health requirements. WMS will ensure that all staff involved in the preparing and handling of food has receive training in food hygiene.

EYFS 2023, 3.49

<https://help-for-early-years-providers.education.gov.uk/safeguarding-and-welfare/food-safety>

Indicators – Identifying Abuse

The warning signs of child abuse and neglect can vary from child to child. All staff, including sessional staff, should log even minor concerns about incidents and behaviour changes, and any other worries about children and young people.

Abuse is a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

There are four main categories of abuse and neglect: as detailed in the Department of Health ‘Working Together to Safeguard Children’ document 2010.

- physical abuse
- emotional abuse
- sexual abuse
- neglect.

Physical Abuse

Physical abuse is deliberately physically hurting a child. It might take a variety of different forms, including hitting, pinching, shaking, throwing, poisoning, burning or scalding, drowning or suffocating a child.

Physical abuse can happen in any family, but children may be more at risk if their parents have problems with drugs, alcohol and mental health or if they live in a home where domestic abuse happens.

Babies and disabled children also have a higher risk of suffering physical abuse, and physical abuse in young children is more likely to lead to permanent injury or fatality.

Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child. Physical abuse can also occur outside of the family environment.

Emotional Abuse

Emotional abuse is the persistent emotional maltreatment of a child. It is also sometimes called psychological abuse and it can have severe and persistent adverse effects on a child's emotional development.

Although the effects of emotional abuse might take a long time to be recognisable, practitioners will be in a position to observe it, for example, in the way that a parent interacts with their child.

Emotional abuse may involve deliberately telling a child that they are worthless, or unloved and inadequate. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child from participating in normal social interaction.

It may involve seeing or hearing the ill-treatment of another, which includes coercive control and domestic abuse.

It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual Abuse & Exploitation

Sexual abuse is any sexual activity with a child. You should be aware that many children and young people who are victims of sexual abuse do not recognise themselves as such. A child may not understand what is happening and may not even understand that it is wrong.

Sexual abuse can have a long-term impact on mental health. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males; women and children are also perpetrators.

Child sexual exploitation is a form of sexual abuse where children are sexually exploited for Money, power or status. It can involve violent, humiliating and degrading sexual assaults. In some cases, young people are persuaded or forced into exchanging sexual activity for money, drugs, gifts, affection or status. Consent cannot be given, even where a child may believe they are voluntarily engaging in sexual activity with the person who is exploiting them. Child sexual exploitation doesn't always involve physical contact and can happen online. A

significant number of children who are victims of sexual exploitation go missing from home, care and education at some point.

Neglect

Neglect is a pattern of failing to provide for a child's basic needs, whether it be adequate food, clothing, hygiene, supervision or shelter. It is likely to result in the serious impairment of a child's health or development. Children who are neglected often also suffer from other types of abuse.

Neglect usually indicates a relationship issue between the parent and child.

A key task for staff and volunteers is to record all instances of neglect, however minor. This builds up a picture of the child's lived experience and provides the crucial evidence required at point of referral.

https://search3.openobjects.com/mediamanager/walthamforest/fsd/files/waltham_forest_child_neglect_resource_for_multiagency_working_1.pdf

Bruising in babies

WMS accepts children on roll from aged 2 years. Should we observe bruising in a baby who is not crawling, cruising or independently mobile we will raise the concern with the child's parent in the first instance depending on the timing and the nature of the concern. In all cases bruising in pre-mobile children a referral will be made to MASH.

<https://learning.nspcc.org.uk/research-resources/pre-2013/bruises-children-core-info-leaflet>

There are many different aspects in which neglect can manifest:

- Physical Neglect or Deprivation of Needs
- Medical Neglect
- Supervisory Neglect
- Environmental Neglect
- Educational Neglect
- Emotional Neglect

Special Educational Needs

All staff at WMS are aware of the signs and symptoms of abuse. As Early Years Practitioners, WMS recognise that children with special educational needs and disabilities (SEND) can face additional safeguarding challenges and that additional barriers can exist when recognising abuse and neglect in this group of children.

These barriers can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration.
- being more prone to peer group isolation than other children.

- the potential for children with SEND being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

Children and mental health problems

At WMS, we recognise mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or even exploitation. Where it is known that children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can impact on their mental health, behaviour and in turn impact on their education. Our/my setting will identify the additional needs of these children and provide extra monitoring and support to mitigate these additional barriers. Where necessary, referrals will be made to mental health professionals and or early help for further support.

WMS aim to take a trauma informed approach to support the children in the setting, considering their lived experience, and using this to inform how best to support them in terms of their welfare and engage them with learning.

In general, WMS will always discuss any concerns the setting may have with the child's parents. Parents need to know that we are worried about their child. However, we will not discuss our concerns if we believe that this would place the child at greater risk or lead to loss of evidence for a police investigation.

If we decide not to discuss our concerns with the child's parents or carers this will be recorded in the child's safeguarding file with a full explanation for our decision.

Children Missing Education (CME) and Children Missing from Education (CMfE)

Attendance, absence and exclusions are closely monitored. A child with an unexplained absence from the setting may be a potential indicator of abuse and neglect. The DSL will monitor unexplained/unauthorised absence and take appropriate action including notifying the local authority, particularly where children go missing on repeated occasions and/or are missing for periods during the school day. Staff must be alert to signs of children at risk of travelling to conflict zones, female genital mutilation and forced marriage.

WMS follows the Safeguarding Children Practice Guidance; Children Missing from School from the London Child Protection Procedures and will refer all cases of concern to their Education Welfare Officer (EWO) or Attendance Lead.

Where parents inform WMS that they wish to 'home educate' their child, WMS will inform the Local Authority in accordance with the Elective Home Education Procedure.

In Waltham Forest, the Behaviour, Attendance & Children Missing Education Service within Early Help is responsible for agreeing and monitoring CMfE with the Procedures for Once a School Place has been offered.

Female Genital Mutilation (FGM)

We at WMS have a legal duty to protect all children in our care under the Working Together to Safeguard Children 2018 agenda. This duty extends to protecting young girls and women from FGM, an illegal and extremely harmful practice and a form of abuse. All staff in our setting have received training to increase their awareness of the practice and harm FGM causes.

As of October 2015, the Serious Crime Act 2015 (Home Office, 2015) introduced a duty on teachers (and other professionals) to notify the police of known cases of female genital mutilation where it appears to have been carried out on a girl under the age of 18. Our school will operate in accordance with the statutory requirements relating to this issue, and in line with local safeguarding procedures.

We recognise that children are at higher risk of FGM if this has already been carried out on their mother, sister or a member of their extended family (HM Government, 2016). In consideration of this we will always maintain a culture of vigilance.

Should a child in our care show any signs and symptoms of FGM or we have good reason to believe that the child is at risk of FGM, we will refer the child to Waltham Forest MASH team using our existing standard safeguarding procedures as it is a form of child abuse. However, should we think a child is in immediate danger we will contact the police on 999

Link to e-learning <https://www.fgmelearning.co.uk/>
<https://www.gov.uk/government/collections/female-genital-mutilation>

FGM is a cultural practice and is illegal in the UK and is considered a violation of human rights by the United Nations and a form of child abuse with long-lasting harmful consequences. Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a girl being at risk of FGM, or already having suffered FGM.

FGM refers to procedures of any alteration involving partial or total removal of the external female genital organs. The procedure may lead to short term and long-lasting harmful consequences such as death, trauma, infections, flashbacks, infertility, kidney problems, sexual dysfunctions, incontinence, post-traumatic stress disorder etc. It is known to be practised in the North African countries, the Middle-East, Indonesia, Malaysia, India and Pakistan. However, with migration worldwide it is also practised in the UK, the USA, Canada, Australia etc.

One of the prominent reasons for the practice is to suppress women's sexual desire. There is a social pressure on women to undergo the procedure otherwise they may be segregated by their peers, or labelled "unclean". Furthermore, FGM is often a requirement for getting married in practicing communities. FGM is not a religious practice.

Indicators

There is a range of potential indicators that a girl may be at risk of FGM.

FGM often takes place in the summer holidays, as the recovery period after FGM can be 6 to 9 weeks. Professionals should be mindful of at risk times when children go on long holidays and/or are getting a visit by

female elder from their country of origin. Additionally, girls are considered at risk where their mother or sisters have undergone FGM, and girls are talking about a ‘special’ event or procedure to ‘become a woman.’

The post FGM symptoms include, but are not limited to, difficulty in walking, sitting or standing, spending longer than normal in the bathroom or toilet, unusual behaviour after a lengthy absence, reluctance to undergo normal medical examinations, and asking for help but not be explicit about the problem due to embarrassment or fear. They can sometimes ask about their friend’s problem rather than their problem. **Professionals should raise an alert to child social care via the MASH if they have any FGM concerns.**

Further information on warning signs that FGM may be about to take place, or may have already taken place, can be found on pages 16-17 of the [Multi-Agency Practice Guidelines](#).

Actions

The United Nations addresses FGM as violation of human rights. In the UK, FGM is a criminal offence and a harmful form of child abuse. It is illegal to practice in the UK and/or anyone involved in taking girl outside of the UK to have FGM carried out will be punished under the [FGM Act 2003](#) and [Serious Crime Act 2015](#). LBWF follows a comprehensive approach comprising prevention, punishment, enforcement, support and protection measures to safeguard young girls from FGM.

Mandatory Reporting Duty

Section 5C of the Female Genital Mutilation Act 2003 (as inserted by section 75 of the Serious Crime Act 2015) gave the Government powers to issue statutory guidance on FGM to relevant persons. The [draft statutory guidance](#) draws on the existing FGM multi-agency practice guidelines and has been updated to capture legal changes resulting from provisions in the Serious Crime Act 2015, new guidance for health professionals, new sources of data on FGM and wider safeguarding responsibilities, duties and resources for professionals. It also includes guidance on the new mandatory reporting, which came into effect on 31st October 2015.

The guidance provides professionals with the information they need to help them understand the issues around FGM; professionals’ responsibilities on FGM linked to wider safeguarding duties and good practice; the range of legal interventions to deal with FGM; guidelines for key professionals including police, healthcare professionals, children’s social care and schools and colleges, and working with communities to prevent FGM.

Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015) places a statutory duty upon teachers¹, along with social workers and healthcare professionals, to report to the

¹“teacher” means—

(a) in relation to England, a person within section 141A(1) of the Education Act 2002 (persons employed or engaged to carry out teaching work at schools and other institutions in England);

(b) in relation to Wales, a person who falls within a category listed in the table in paragraph 1 of Schedule 2 to the Education (Wales) Act 2014 (anaw 5) (categories of registration for purposes of Part 2 of that Act) or any other person employed or engaged as a teacher at a school (within the meaning of the Education Act 1996) in Wales.

police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18. Those failing to report such cases will face disciplinary sanctions. It will be rare for teachers to see visual evidence, and they should not be examining children – it is likely that discovery will be made by disclosure by the student, parent or otherwise. These cases **must be referred to police** (via the local CAIT team or by calling 101). **Immediate reporting is required if FGM has been performed recently, and in historical cases, reporting must take place within one month.**

Unless the teacher has a good reason not to, they should still consider and discuss any such case with the school's designated safeguarding lead and involve children's social care as appropriate. While the duty is limited to the specified professionals described above, non-regulated practitioners also have a responsibility to take appropriate safeguarding action in relation to any identified or suspected case of FGM, in line with wider safeguarding frameworks. If staff have a concern they should activate local safeguarding procedures via the MASH, using existing national and local protocols for multi-agency liaison with police and children's social care.

Settings can also:

- Circulate and display materials about FGM
- Display relevant information (for example, details of the NSPCC's Helpline and appropriate black and minority ethnic women's groups)
- Inform colleagues/raise awareness of the issues around FGM – as well as including appropriate training in continuing professional development

PREVENT

We are fully aware and committed to the on-going protection and safety of our children, staff and wider community in accordance with DfE guidance '*Working together to Safeguard Children*' (2015) and '*Keeping Children Safe in Education*' (2018). An integral part of that work relates to the governments PREVENT strategy and the duties it places on education settings.

We are committed to providing a secure environment, where children feel safe and are kept safe. All adults in our setting recognise that safeguarding is everyone's responsibility irrespective of the role they undertake or whether their role has direct contact or responsibility for children or not. Staff will be alert to issues including:

- Disclosures by children of their exposure to the extremist actions, views or materials of others outside of the setting, such as in their homes or community groups
- Graffiti symbols, writing or art work promoting extremist messages or images
- Children accessing extremist material online, including through social networking sites
- Parental reports of changes in behaviour, friendship or actions and requests for assistance
- Use of extremist or 'hate' terms to exclude others or incite violence
- Intolerance of difference, whether secular or religious or, in line with our equalities policy, views based on, but not exclusive to, gender, disability, homophobia, race, colour or culture

By continually developing our leadership and accountability practices, staff training opportunities referral systems and management of those referrals, we strive to demonstrate a pro-active and diligent approach to this aspect of our responsibilities as educators and safe-guarders.

Aligned with a consistent delivery of a broad and balanced curriculum which promotes British Values through the EYFS, we strive to protect our students - and the wider community - against the threats of extremism, through the promotion of both fundamental values and cohesion amongst our communities.

We also recognise that further information and support is available from the Multi-Agency Safeguarding Hub (0208 496 2310) and the Local Authority's Community Safety Team (0208 496 3000).

Local Authority contact email or phone the Senior Programme Manager (Prevent Education) Amy Strode

Email: Amy.strode@walthamforest.gov.uk Telephone: 07816150037.

CHANNEL is a national programme which focuses on providing support at an early stage to people identified as vulnerable to being drawn into terrorism. Our school works in accordance with local procedures for PREVENT and with other agencies, sharing information and concerns as appropriate.

Forced marriage

Forcing a person into a marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage.

Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example).

Nevertheless, some communities use religion and culture as a way to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

The Forced Marriage Unit has published statutory guidance and Multi-agency guidelines, with pages 35-36 of which focus on the role of schools and colleges. School and college staff can contact the Forced Marriage Unit if they need advice or information: Contact: 020 7008 0151 or email fmufco.gov.uk.

Honour-Based Violence

The terms 'honour crime' or 'honour-based violence' or 'izzat' embrace a variety of crimes of violence (mainly but not exclusively against women and girls), including assault, imprisonment and murder where the person is being punished by their family or their community. They are being punished for actually, or allegedly, undermining what the family or community believes to be the correct code of behavior.

In transgressing this correct code of behavior, the person shows that they have not been properly controlled to conform by their family and this is to the 'shame' or dishonour' of the family. It can be distinguished from other forms of abuse, as it is often committed with some degree of approval.

What is Child Abuse linked to faith and belief?

There is no agreed definition of or consensus about the concept of 'child abuse linked to faith or belief'. Child abuse linked to faith or belief can be separated into four areas as follows;

- Abuse that occurs as a result of a child being accused of witchcraft or of being a witch
- Abuse that occurs as a result of a child being accused of being 'possessed by spirits' that is, 'spirit possession'
- Ritualistic abuse
- Satanic abuse

The forms the abuse can take include;

- **Physical abuse:** beating, burning, cutting, stabbing, semi-strangulating, tying up the child, or rubbing chilli peppers or other substances on the child's genitals or eyes
- **Emotional abuse:** in the form of isolation {e.g. not allowing a child to hear or share a room with family members or threatening to abandon them}. The child may also be persuaded that they are possessed
- **Neglect:** failure to ensure appropriate medical care, supervision, school attendance, good hygiene, nourishment, clothing or warmth
- **Sexual abuse;** within the family or community, children abused in this way may be particularly vulnerable to sexual exploitation

Where does it take place?

Child Abuse linked to faith and/or belief is not confined to one faith, nationality or ethnic community. Examples have been recorded worldwide among Europeans, Africans, Asians and elsewhere as well as in Christian, Muslim, Hindu and pagan faiths among others.

Not all those who believe in witchcraft or spirit possession harm children. Data on numbers of known cases suggests that only a small minority of people with such beliefs go on to abuse children.

Common factors that put a child at risk of harm include;

- **Belief in evil spirits:** this is commonly accompanied by a belief that the child could 'infect' others with such 'evil'. The explanation for how a child becomes possessed varies widely, but includes through food that they have been given or through spirits that have flown around them;
- **Scapegoating** because of a difference: it may be that the child is being looked after by adults who are not their parents (i.e. privately fostered), and who do not have the same affection for the child as their own children;
- **Rationalising misfortune** by attributing it to spiritual forces and when a carer views a child as being 'different' because of disobedience, rebelliousness, over-independence, bedwetting, nightmares, illness or because they have a perceived or physical abnormality or a disability; Disabilities involved in documented cases included learning disabilities, mental ill health, epilepsy, autism, a stammer and deafness;
- **Changes and / or complexity in family structure or dynamics:** there is research evidence (see Stobart, Child Abuse linked to Accusations of Spirit Possession - see related links) that children become more vulnerable to accusations of spirit possession following a change in family structure (e.g. a parent or carer having a new partner or transient or several partners). The family structure also tended to be complex so that exact relationships to the child were not immediately apparent. This may mean the child is living with extended family or in a private fostering arrangement (see Children Living Away from Home Procedure, Private Fostering - see related link). In some cases, this may even take on a form of servitude;
- **Change of family circumstances for the worse:** a spiritual explanation is sought in order to rationalise misfortune and the child is identified as the source of the problem because they have become possessed by evil spirits. Research evidence is that the family's disillusionment very often had its roots in negative experiences of migration:
in the vast majority of identified cases in the UK to date, the families were first or second generation migrants suffering from isolation from extended family, a sense of not belonging or feeling threatened or misunderstood. These families can also have significantly unfulfilled expectations of quality of life in the UK;
- **Parental difficulties:** a parent's mental ill health appears to be attributed to a child being possessed in a significant minority of cases. Illnesses typically involved include post-traumatic stress disorder, depression and schizophrenia.

The Law in relation to child abuse linked to faith and belief

There are sufficient existing laws within the UK with which to prosecute those responsible for child abuse linked to faith and/or belief thereby negating any need for further more specific offences.

What to do if you suspect a child is at risk from abuse linked to faith and/or belief

Concerns about a child's welfare can vary greatly in terms of their nature and seriousness. If you have concerns about a child, you should ask for help. You should discuss your concerns with your manager, a named or designated professional or a designated member of staff.

For example;

- for school staff (both teaching and non-teaching) concerns should be reported via the school's or college's designated safeguarding lead. The safeguarding lead will usually decide whether to make a referral to children's social care;
- for early years practitioners, the Early Years Foundation Stage sets out that providers should ensure that they have a practitioner who is designated to take a lead responsibility for safeguarding children who should liaise with local statutory children's services agencies.

Private fostering arrangements

A private fostering arrangement occurs when someone other than a parent or a close relative cares for a child for a period of 28 days or more, with the agreement of the child's parents. It applies to children under the age of 16, or aged under 18 if the child is disabled. Children looked after by the local authority or who are placed in a residential school, children's home or hospital are not considered to be privately fostered.

Private fostering occurs in all cultures, including British culture and children may be privately fostered at any age.

Most privately fostered children remain safe and well but safeguarding concerns have been raised in some cases so it is important that schools are alert to possible safeguarding issues, including the possibility that a child has been trafficked into the country.

By law, a parent, private foster carer or other persons involved in making a private fostering arrangement must [notify children's services](#) as soon as possible.

Where a member of staff becomes aware that a child may be in a private fostering arrangement they will raise this with the DSL and the setting should notify the local authority of the circumstances.

Child Sexual Exploitation (CSE)

Sexual exploitation can take many forms from the seemingly 'consensual' relationship where sex is exchanged for attention/affection, accommodation or gifts, to serious organised crime and child trafficking. What marks out exploitation is an imbalance of power within the relationship. The perpetrator always holds some kind of power over the victim, increasing the dependence of the victim as the exploitative relationship develops. WMS will attempt to identify young people who are vulnerable to, or at risk of, sexual exploitation and who need services and interventions to keep them safe. We will pass on any information about CSE issues affecting the schools, for example concerns about adults hanging around the school, to the police.

All staff are made aware of the indicators of sexual exploitation and all concerns are reported immediately to the DSL.

The MASE is the Multi-Agency Sexual Exploitation meeting, which is held on a monthly basis and is co-chaired by Children's Social Care and the Metropolitan Police. The MASE has two purposes:

For professionals to refer young people who are at risk of or are experiencing sexual exploitation, who are subject to a plan (Child Protection, Multi-agency or Child in Need) but for whom the risks are not decreasing and specialist advice or support is required.

To refer information/intelligence about possible venues/people involved in sexual exploitation. This information will then contribute to developing a strategic overview and understanding of sexual exploitation in Waltham Forest.

Documents to be accessed are as follows:

WFSCB CSC referral letter/WFSCB MASE referral form

Child criminal exploitation: County Lines

Criminal exploitation of children is a geographically widespread form of harm that is a typical feature of county lines criminal activity: drug networks or gangs groom and exploit children and young people to carry drugs and money from urban areas to suburban and rural areas, market and seaside towns.

Key to identifying potential involvement in county lines are missing episodes, when the victim may have been trafficked for the purpose of transporting drugs and a referral to the National Referral Mechanism should be considered.

Like other forms of abuse and exploitation, county lines exploitation:

- can affect any child or young person (male or female) under the age of 18 years;
- can affect any vulnerable adult over the age of 18 years;
- can still be exploitation even if the activity appears consensual;
- can involve force and/or enticement-based methods of compliance and is often accompanied by violence or threats of violence;
- can be perpetrated by individuals or groups, males or females, and young people or adults; and
- is typified by some form of power imbalance in favour of those perpetrating the exploitation.

Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources.

Child on Child abuse including Upskirting

WMS may be the Children can abuse other children. This is generally referred to as child on child abuse and can take many forms.

WMS may be the only stable, secure, and safe element in the lives of children at risk of, or who have suffered harm. Nevertheless, whilst at school, their behaviour may be challenging and defiant, or they may instead be withdrawn, or display abusive behaviours towards other children. Our school recognises that some children may abuse their peers and any incidents of child-on-child abuse will be managed in the same way as any other child protection concern and will follow the same procedures. We will seek advice and support from other agencies as appropriate.

Child on child abuse can manifest itself in many ways. This may include bullying (including cyber bullying), physical abuse or initiation / hazing type violence and rituals. We do not tolerate any harmful behaviour in school and will take swift action to intervene where this occurs. We use lessons and assemblies to help children understand, in an age-appropriate way, what abuse is, and we encourage them to tell a trusted adult if someone is behaving in a way that makes them feel uncomfortable. This includes using online resources which

highlight the risks associated with sharing nude images – <https://www.lgfl.net/online-safety/resource-centre?s=1>

- **Upskirting** which is a criminal offence and typically involves someone taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm and/or sexual exploitation (e.g. photographing or videoing indecent acts).

Our school understands the different gender issues that can be prevalent when dealing with child-on-child abuse.

We take particular note of sexual violence/harm or harassment that takes place at WMS ensuring that all disclosures are taken seriously and that pupils are given support, reassurance, and information about laws in place to protect them from sexual violence and sexual harassment. Where possible, support to the victim and any disciplinary action will be maintained at the same time as appropriate and on a case-by-case basis. This will be determined by risk assessment, liaison with LA, family and with consideration of the victim's needs.

Sexual violence & sexual harassment between children

Sexual violence and sexual harassment can occur between two children of any age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment.

Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and offline (both physical and verbal) and are never acceptable.

It is important that all victims are taken seriously and offered appropriate support. Staff should be aware that some groups are potentially more at risk.

Evidence shows girls, children with SEND and LGBT children are at greater risk.

Staff should be aware of the importance of:

- making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up;
- not tolerating or dismissing sexual violence or sexual harassment as “banter”, “part of growing up”, “just having a laugh” or “boys being boys”; and
- challenging behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them.

Sexual violence

It is important that school and college staff are aware of sexual violence and the fact children can, and sometimes do, abuse their peers in this way. When referring to sexual violence we are referring to sexual offences under the Sexual Offences Act 2003 as described below:

- **Rape:** A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.
- **Assault by Penetration:** A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.
- **Sexual Assault:** A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.

What is consent?

- Consent is about having the freedom and capacity to choose.
- Consent to sexual activity may be given to one sort of sexual activity but not another, eg. to vaginal but not anal sex or penetration with conditions, such as wearing a condom.
- Consent can be withdrawn at any time during sexual activity and each time activity occurs.
- Someone consents to vaginal, anal or oral penetration only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice.

Sexual harassment

When referring to sexual harassment we mean 'unwanted conduct of a sexual nature' that can occur online and offline. When we reference sexual harassment, we do so in the context of child on child sexual harassment.

Sexual harassment is likely to:

- violate a child's dignity,
- and/or make them feel intimidated, degraded or humiliated
- and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names
- sexual "jokes" or taunting
- physical behaviour, such as:
 - deliberately brushing against someone,
 - interfering with someone's clothes (schools and colleges should be considering when any of this crosses a line into sexual violence - it is important to talk to and consider the experience of the victim)
 - displaying pictures, photos or drawings of a sexual nature
- online sexual harassment.

This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence. It may include:

- non-consensual sharing of sexual images and videos
- sexualised online bullying
- unwanted sexual comments and messages, including, on social media
- sexual exploitation
- coercion and threats

The response to a report of sexual violence or sexual harassment

The initial response to a report from a child is important. It is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe.

A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

If staff have a concern about a child or a child makes a report to them, they should follow the referral process. As always, if staff are in any doubt as to what to do they should speak to the designated safeguarding lead (or a deputy).

Key contact

Tracey Goddard - Borough Lead – Child on Child Abuse & Harmful Sexual Behaviour

Tracey.Goddard@walthamforest.gov.uk

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare.

The designated safeguarding lead (and any deputies) should be aware of contact details and referral routes in to the Local Housing Authority so they can raise/progress concerns at the earliest opportunity.

Indicators that a family may be at risk of homelessness include household debt, rent arrears, domestic abuse and anti-social behaviour, as well as the family being asked to leave a property.

Whilst referrals and or discussion with the Local Housing Authority should be progressed as appropriate, and in accordance with local procedures, this does not, and should not, replace a referral into children's social care where a child has been harmed or is at risk of harm.

The Homelessness Reduction Act 2017 places a new legal duty on English councils so that everyone who is homeless or at risk of homelessness will have access to meaningful help including an assessment of their needs and circumstances, the development of a personalised housing plan, and work to help them retain their accommodation or find a new place to live.

The following factsheets usefully summarise the new duties: Homeless Reduction Act Factsheets.

The new duties shift focus to early intervention and encourage those at risk to seek support as soon as possible, before they are facing a homelessness crisis. In most cases school and college staff will be considering homelessness in the context of children who live with their families, and intervention will be on that basis.

In some cases 16 and 17 year olds could be living independently from their parents or guardians, for example through their exclusion from the family home, and will require a different level of intervention and support. Children's services will be the lead agency for these young people and the designated safeguarding lead (or a deputy) should ensure appropriate referrals are made based on the child's circumstances.

The department and the Ministry of Housing, Communities and Local Government have published joint statutory guidance on the provision of accommodation for 16 and 17 year olds who may be homeless and/ or require accommodation.

Domestic Abuse

Domestic abuse is any type of controlling, bullying, threatening or violent behaviour between people in a relationship. But it isn't just physical violence – domestic abuse includes any emotional, physical, sexual, financial or psychological abuse. It can happen in any relationship, and even after the relationship has ended. Both men and women can be abused or abusers.

Witnessing domestic abuse is really distressing and scary for a child, and causes serious harm. Children living in a home where domestic abuse is happening are at risk of other types of abuse too. Children can experience domestic abuse or violence in lots of different ways. They might:

- see the abuse
- hear it from another room
- see a parent's injuries or distress afterwards
- be hurt by being nearby or trying to stop the abuse.

Domestic abuse can happen in any relationship, and it affects young people too. They may not realise that what's happening is abuse. Even if they do, they might not tell anyone about it because they're scared of what will happen, or ashamed about what people will think.

E-Safety

WMS recognises that children will use mobile phones and computers at some time. They are a source of fun, entertainment, communication and education. Young children increasingly use electronic equipment on a daily basis to access the internet and share content and images via social networking sites. However, we know that some men, women and young people will use these technologies to harm children. The harm might range from sending hurtful or abusive texts and emails, to enticing children to engage in sexually harmful conversations, web cam photography or face-to-face meetings. Children may also be distressed or harmed by accessing inappropriate websites that promote unhealthy lifestyles, extremist behaviour and criminal activity.

WMS has an e-safety policy that is known to all staff and children.

WMS' **e-safety policy** explains how we try to keep children safe at the setting and protect and educate children in the safe use of technology. <https://walthamstowmontessori.com/wp-content/uploads/2020/09/WMS-E-Safety-Policy.pdf>

Many children either own or have access to hand held devices and parents are encouraged to consider measures to keep their children safe when using the internet and social media at home and in the community.

Photography and Images

The vast majority of people who take or view photographs or videos of children do so for entirely innocent, understandable and acceptable reasons. Sadly, some people abuse children through taking or using images, so we must ensure that we have some safeguards in place.

To protect children, we will:

- Seek parental consent
- Use only the child's first name with an image
- Ensure children are appropriately dressed
- Encourage child to tell us if they are worried about any photographs that are taken of them
- Have a policy regarding staff use of mobile phones within the workplace

Mobile phones, Smart watches, Photography and technology in the School

To ensure the safety of the children in the setting we operate a no mobile phone usage policy in the setting for both parents' visitors and staff (a designated area is available and staff are made aware where this is to break to). In terms of visitors to the setting they will be asked to keep devices out of site whilst on school premises (in bags which would be placed in the office/locker). Should they need to make a phone call they can do so in the school Office or another area where there are no children as directed by Wendy Palumbo, Head of School or Lorna Mahoney, Principal. In both their absences, Karen Darnborough, Deputy Head can give permissions.

This policy includes details of how internet use at school is filtered and monitored and how we teach children to stay safe online whether they are at school or at home.

As a setting we recognise information technology provides endless learning opportunities for children. We also acknowledge that not all encounters with information technology are positive and as such can be harmful to the safety and the wellbeing of the children. For this reason, when using information technology programmes and equipment we will:

Check all apps, websites and search results before using them with children.

Always ensure children are supervised when accessing the internet.

Ensure safety modes and filters are applied to computers / tablets.

Role model safe behaviour and privacy awareness.

Talk to children about safe use

Ask permission before taking a child's picture even if parental consent has been given.

Check privacy settings to make sure personal data is not being shared inadvertently or inappropriately

<https://www.gov.uk/government/publications/safeguarding-children-and-protecting-professionals-in-early-years-settings-online-safety-considerations>

Escalation

If you have concerns regarding the lack of response to professional opinions and judgements expressed by staff about safeguarding matters including concerns that social care services are not taking appropriate actions regarding the well-being of a child or are not responding in a timely fashion to your concerns.

Professional disagreements (escalation) will be responded to in line with WFSCB procedures and DSLs may request support via the Education Safeguarding Service

https://www.walthamforest.gov.uk/sites/default/files/childrens_escalation_letter_december_2019.pdf

Notifying parents

The school will normally seek to discuss any concerns about a pupil with their parents. This must be handled sensitively, and the DSL will make usually contact with the parent in the event of a concern, suspicion, or disclosure. Our focus is the safety and wellbeing of the pupil. Therefore, if the school believes that notifying parents could increase the risk to the child or exacerbate the problem, advice will be sought first from Children's Social Care.

Holding children in school after a referral to MASH

Sometimes MASH social workers and police will want to see a child on the day of referral to ensure that they are safe to go home. In such cases, they will ask you to keep the child in school until the visit has taken place. This is because it can take time to organise the visit with an available social worker and/or police officer, sometimes families will be asked to wait at school before a child is released to them, and they may be asked not to see their child during this time. This can be stressful and uncomfortable for both schools and families and sometimes all are kept at school until late in the evening. School should prepare families for the length of time this process can take and treat them with compassion and understanding and make every attempt to facilitate this difficult process.

Schools do not have powers to prevent a child from leaving their school when a parent arrives. As such, if a parent refuses to comply with the request for their child to remain in school until a professional can speak to them, the school should inform the parent that they will be alerting emergency services. The school should then inform the social worker and police immediately.

Support for pupils, families and staff

Child abuse is devastating and traumatic for children. Even those parents who hurt their children will be distressed. It can also result in secondary trauma in those staff who are involved in these cases.

We will support pupils, their families, and staff.

For advice and support about any safeguarding matter in school or for information about a range of safeguarding training courses, please contact the Education Safeguarding Service:

Email: safeguardingineducation@walthamforest.gov.uk

Telephone: 020 8496 3646

Caroline Coyston, LADO and Safeguarding in Education Team Manager

Susannah Bennett, LADO and Safeguarding in Education Assistant Team Manager (Schools Lead)

Jennifer Knight, Education Safeguarding Early Years Lead

For Escalations contact:

Gillian Nash, Head of Settings and Workforce Safeguarding

Email: Gillian.Nash@walthamforest.gov.uk

Telephone: 020 8496 3682

TAKING ACTION TO ENSURE THAT CHILDREN ARE SAFE AT WMS AND AT HOME

All staff should follow the DfE guidance:

- Statutory Framework for the Early Years Foundation Stage 2021
<https://www.gov.uk/government/publications/early-years-foundation-stage-framework--2>
Safeguarding and Welfare requirements) Section 3

It is **not** the responsibility of the WMS staff to investigate welfare concerns or determine the truth of any disclosure or allegation. All staff, however, have a duty to recognise concerns and maintain an open mind. Accordingly all concerns regarding the welfare of child will be recorded and discussed with the designated senior person/manager/owner with responsibility for safeguarding (or another senior member of staff in the absence of the designated person) prior to any discussion with parents.

Staff must immediately report:

- Any suspicion that a child is injured, marked, or bruised in a way which is not readily attributable to the normal knocks or scrapes received in play
- Any explanation given which appears inconsistent or suspicious
- Any behaviours which give rise to suspicions that a child may have suffered harm
- Any concerns that a child may be suffering from inadequate care, ill treatment, or emotional maltreatment
- Any concerns that a child is presenting signs or symptoms of abuse or neglect
- Any significant changes in a child's presentation, including non-attendance
- Any suspicion, allegation disclosure of abuse about or by a child / young person
- Any concerns regarding person(s) who may pose a risk to children (e.g. living in a household with children present)
- Information which indicates that the child is living with someone who does not have parental responsibility for them (private fostering)

Dealing with disclosures made by children

Children and young people may disclose concerns to staff, and may do so knowing that what they are disclosing is a concern, and sometimes they will be unaware that their disclosure will signal concerns.

Wherever possible, staff should make the time and space to listen and understand what the child / young person is disclosing. Don't be afraid to respond with compassion and empathy and to ask open questions if you're unsure about what the concerns are.

Especially vulnerable pupils

Should a child make a disclosure of abuse as with all Child Protection concerns, we will act on the information immediately. If staff concerned that a child may be at risk or is suffering abuse, they must report the concern to the DSL Wendy Palumbo or in their absence to the deputy DSL Karen Darnborough.

If a child makes a disclosure or an allegation of abuse against an adult or another child or young person, it is important that you:

Stay calm and listen carefully.

Reassure them that they have done the right thing in telling you.

Do not investigate or ask leading questions.

Let them know that you will need to tell someone else.

Do not promise to keep what they have told you a secret.

Inform your Safeguarding Designated Officer as soon as possible.

Make a written record of the allegation, disclosure or incident which you must sign, date and record your position using the setting concern about a child's welfare & safety form (See Appendix 5).

****Where an allegation is made against a professional the DSL will immediately advise the Lead safeguarding of the matter.***

We are aware that parents are normally the first point of contact should a concern arise regarding their child. If a suspicion of abuse is recorded, we will inform parents at the same time the report is made. The only exception to this taking place is where informing the parents will place the child at further risk. This will usually be the case where the parent or family member is the potential abuser or where a child may be endangered by this disclosure. In these cases, the investigating officers will inform parents.

In any case the setting will continue to welcome and work professionally with the child and their family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interests of the child.

What to do if you're worried a child is being abused: advice for practitioners

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/419604/What to do if you re worried a child is being abused.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/419604/What_to_do_if_you_re_worried_a_child_is_being_abused.pdf)

To ensure that all of our pupils receive equal protection we will give special consideration to children who are particularly vulnerable.

Children & Young People Especially Vulnerable

- Young carers
- Transgender children / young people
- Affected by parental substance misuse, domestic violence or parental mental health needs
- Asylum seekers
- Living away from home
- Vulnerable to being bullied, or engaging in bullying
- Living in temporary accommodation
- Live transient lifestyles
- Living in chaotic and unsupportive home situations
- Vulnerable to discrimination on the grounds of race, ethnicity, religion, disability or sexuality
- At risk of sexual exploitation
- Do not have English as a first language
- At risk of female genital mutilation (FGM)
- At risk of forced marriage
- At risk of being drawn into extremism.

This list provides examples of additionally vulnerable groups and is not exhaustive.

Safeguarding Procedure in School

Designated Safeguarding Lead (DSL)

A Designated Safeguarding Lead (DSL) is appointed to support the management of safeguarding cases at WMS. Their name and contact details are:

Wendy Palumbo, Head of School. Email: office@walthamstowmontessori.com / Tel: 0208523 2968

The Deputy Designated Safeguarding Lead(s) (DDSL) are: safeguarding@walthamstowmontessori.com

Karen Darnborough, Class Teacher. Email: karen@walthamstowmontessori.com / Tel: 020 8523 2968

A DSL or Deputy will be on site at all times. Staff and volunteers should be able to access DSLs for advice, information and signposting at all times. If, for some reason, the DSL is inaccessible, staff and volunteers must make a referral without delay. The DDSLs are trained to the same level as the DSL and are able to take over seamlessly in the event of the DSL being absent.

It is important that DSLs obtain a full and rich picture of children's experience. As soon as staff identify indicators of concern, they should record all concerns regarding behaviour and wellbeing by following the

schools procedures and policy on recording concerns on the appropriate forms, and if the concerns are serious, they should speak to the DSL without delay.

Although DSLs take responsibility for Safeguarding in school, Headteachers are ultimately responsible for all the children / young people in school. Headteachers should be contacted in the event that possible harm has been caused by a member of staff or volunteer.

Recording

Recording of concerns should take place as close in time to the incident as reasonably possible, by using the schools appropriate recording of concern form.

Where concerns are serious, in addition to logging concerns, staff should seek to speak to a DSL immediately either in person or by phone.

Information sharing

We at WMS view information sharing as an essential part of our arrangements to safeguard the children in our care. As part of this we acknowledge that there may be concerns about a child or family which could be considered low- level, in such cases we will share information as necessary to protect the child. The Data Protection Act 2018 and GDPR do not prevent the sharing of information for the purposes of keeping children safe. Any information shared will be done on a need to know basis to aid the effective assessment and identifying of children at risk. As practitioners we are clear about when we should share information and be alert to the signs and triggers of child abuse, should there be a suspicion, enquiries and external investigations are kept confidential and shared only with those who need to know. Any information shared will be in line with guidance from the local authority and police.

Information sharing Advice for practitioners providing safeguarding services to children, young people, parents and carers

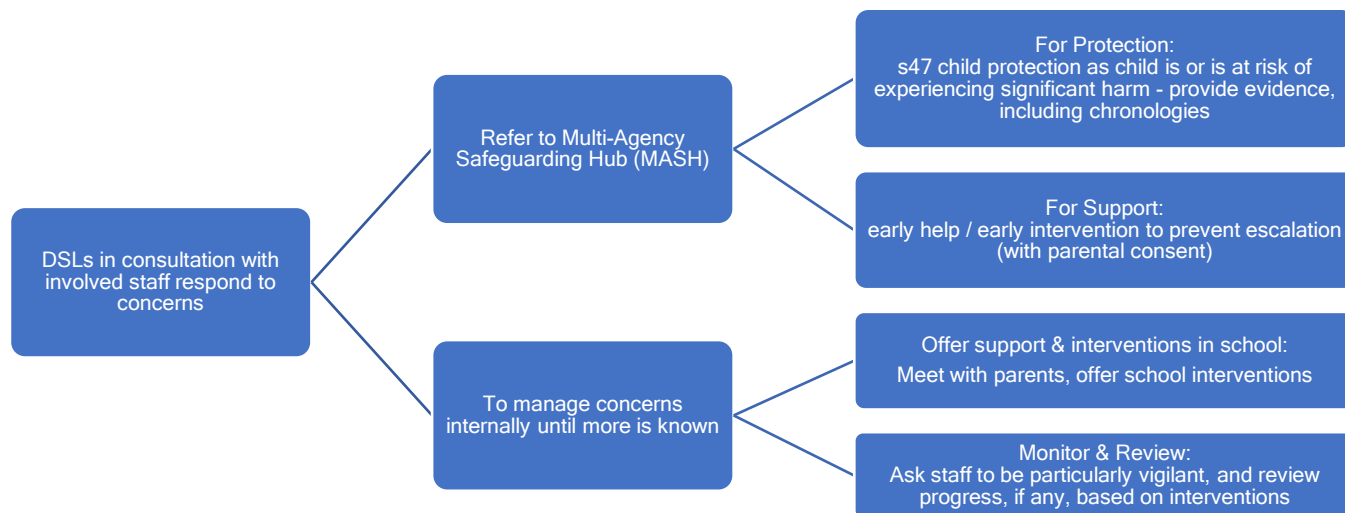

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/721581/Information_sharing_advice_practitioners_safeguarding_services.pdf

The Data Protection Act 2018 and GDPR 2016 **do not** prevent, or limit, the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare and protect the safety of children. Sharing information regarding safeguarding children and young people within school enables staff to be especially vigilant around certain children.

If in doubt about sharing, see: [Information sharing: Advice for practitioners providing safeguarding services to children, young people, parents and carers 2018.](#)

DSL Decision-Making

In consultation with [MASH](#), if necessary, WMS DSLs and involved staff will decide together:

Referrals

Multi-agency Safeguarding Hub (MASH) is Waltham Forest's single point of referral to social care for concerns regarding children, young people and vulnerable adults:

- Early Help (parental consent needed)
- Child in Need
- Child Protection
- Adult Safeguarding

Referrals to the Multi-agency Safeguarding Hub (MASH) should be made immediately when there is a concern that the child is suffering significant harm or is likely to do so.

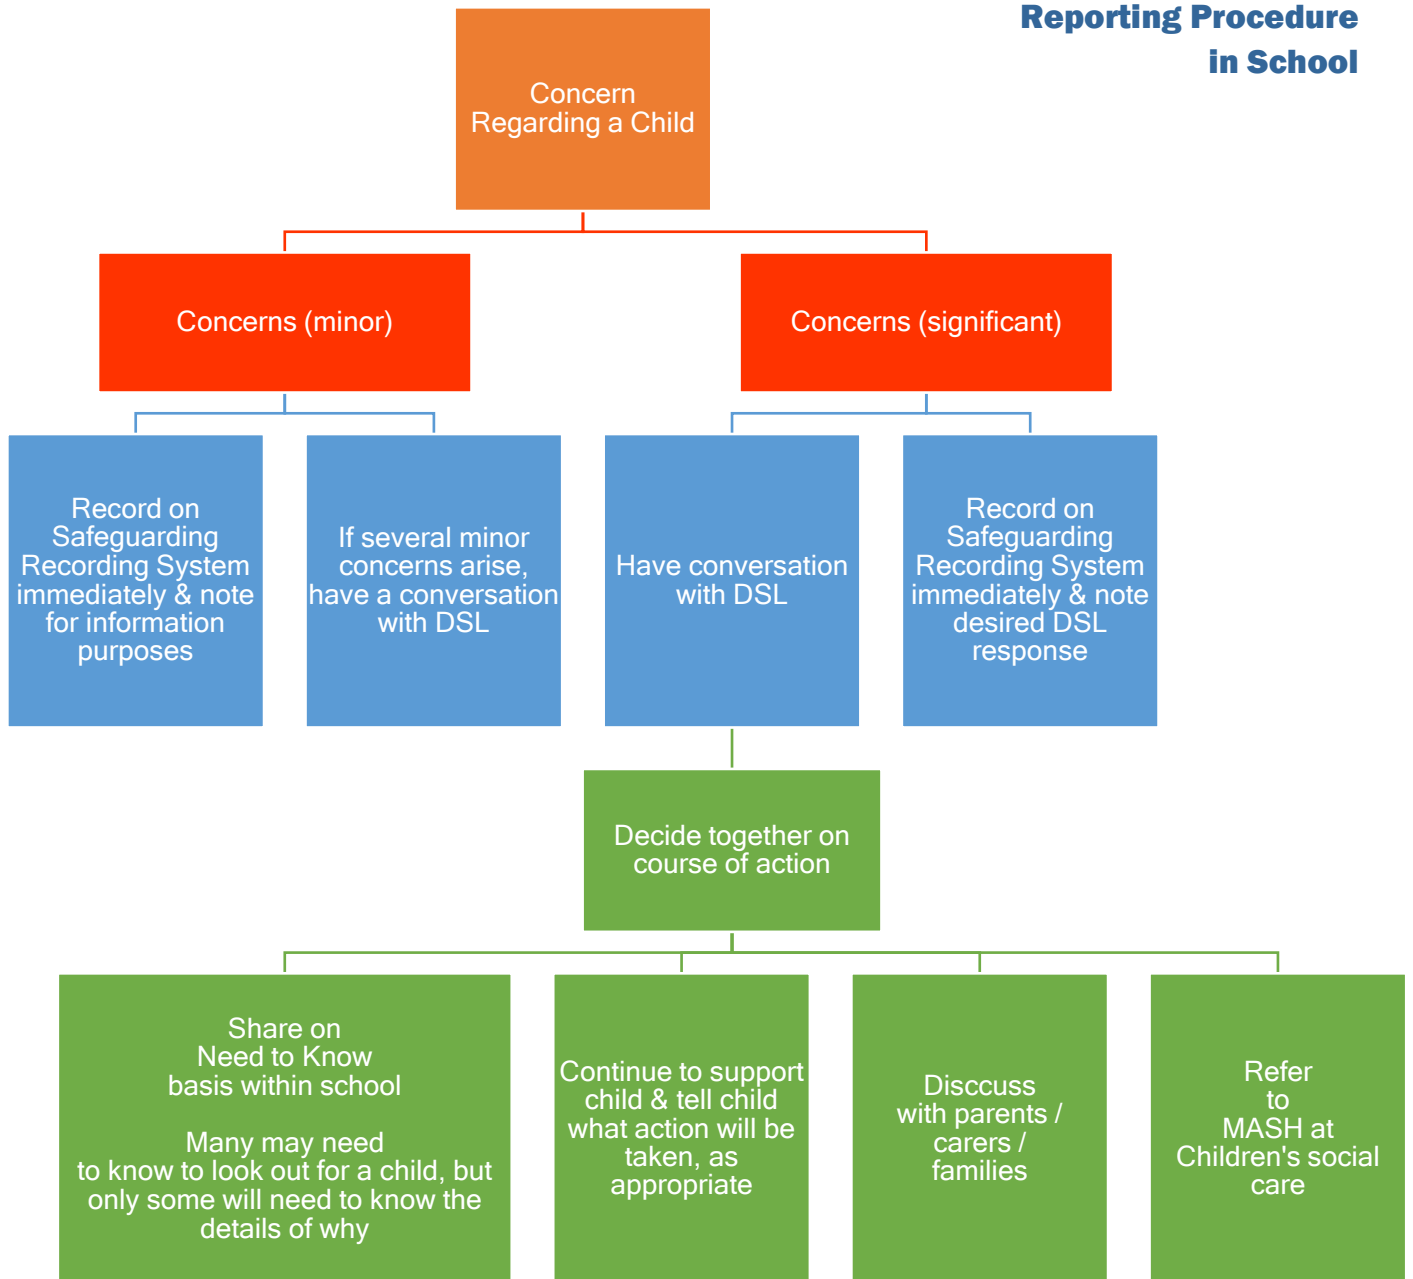

It is good practice to notify MASH by phone and/or email to discuss the case prior to sending a written referral. This will help determine the level of intervention and will also give children's social care and the police time to make arrangements to come and see the child that same day in school, if deemed necessary.

In **WMS** the DSL ordinarily takes responsibility for the referral process, in consultation with staff who know the child. Still, there are circumstances where another member of staff must refer without delay:

- If for some reason (e.g., during the summer break), the DSL is not available, the referral should be made without delay by any other member of school staff
- If you disagree with your DSL's decision not to refer a case to MASH, it is your responsibility to refer the case, and to respectfully inform the DSL that you are doing so.

Should another member of staff refer instead, the DSL must be consulted and updated as soon as possible.

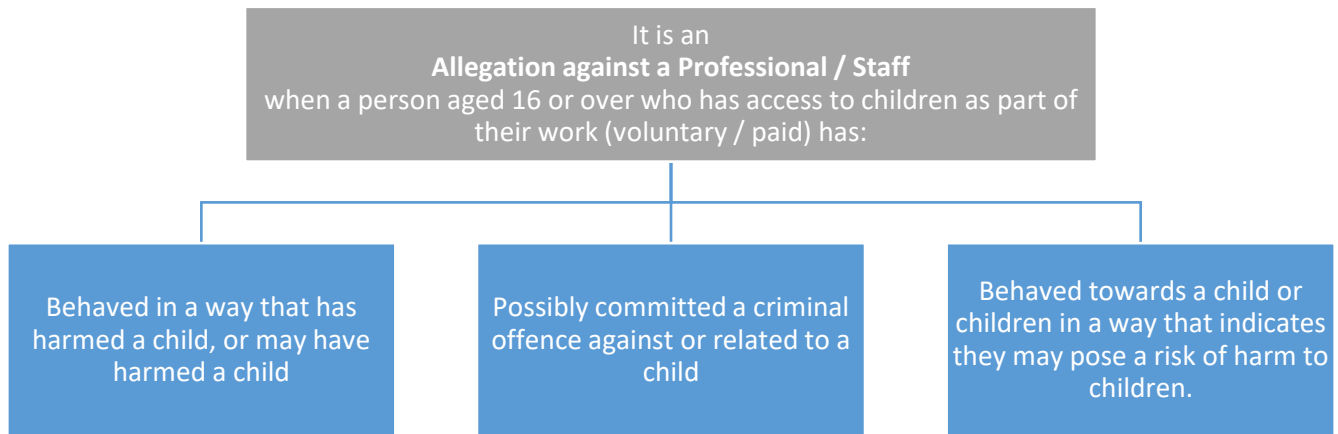

Reporting Procedure in School

Allegations against professionals

All allegations against staff and volunteers must be reported to Wendy Palumbo, Head of School and Lorna Mahoney, Principal in the first instance in confidence. The person against whom the allegation is made should not be notified at this point.

If harm is caused to a child by a member of staff or a volunteer, the referral should go to LADO.

It is relatively rare for a child to make an entirely false or malicious allegation, although misunderstandings and misinterpretations of events do happen.

If a child does make a false allegation, there may be other concerns regarding their welfare.

The full procedures for dealing with allegations against staff can be found in [Keeping Children Safe in Education \(2023\)](#).

Initial Action by person receiving or identifying an allegation or concern

- Whilst allegations may be false, malicious or misplaced, they may also be founded in truth; all staff must report allegations even if they reasonably believe them to be false.
- All allegations must be investigated properly, in line with agreed procedures and outcomes recorded.
- Staff must treat all allegations seriously and keep an open mind.
- Make a written record of the information, including the time, date and place of incident/s, persons present and what was said and sign and date this.
- Immediately report the matter to the headteacher/proprietor.
- Do not share allegations with any other member of staff, including the subject of the allegation.
- If the allegation is against the headteacher, staff must report to chair of governors / trustees.
- If there is a lack of faith in the safeguarding governance, all staff can contact the local authority's Designated Officers (also known as LADOs) directly, without delay:
020 8496 3646 / lado@walthamforest.gov.uk

Whistleblowing

Whistleblowing is when someone raises a concern about a dangerous or illegal activity or any wrongdoing within their organisation. Raising a concern is known as "blowing the whistle" and is a vital process for

identifying risks to people's safety. Sharing information or talking through a concern can be the first step to helping an organisation identify problems and improve their practices.

The wrongdoing you disclose must be in the public interest. This means it must affect others, for example the general public.

Remember as a whistle blower you're protected by law. As a result of whistle blowing you should not be treated unfairly or lose your job because you have 'blown the whistle'.

Adapted from the NSPCC <https://www.nspcc.org.uk>

You can raise your concern at any time about a current incident or in relation to something that happened in the past or you believe will happen in the near future. We recognise that children cannot be expected to raise concerns in an environment where staff fail to do so. For this reason, all staff at setting name are aware that they have a duty to raise concerns about the attitude or actions of colleagues via the settings whistleblowing and complaints policies and that they have a right to seek appropriate advice from the following

LADO & safeguarding team telephone number 020 8496 3646 (9-5pm Monday to Friday) email Safeguardingeducation@walthamforest.gov.uk

Ofsted telephone number call our whistleblowing hotline on 0300 1233155 (8am to 6pm, Monday to Friday) email whistleblowing@ofsted.gov.uk write to: WBHL, Ofsted, Piccadilly Gate, Store Street, Manchester, M1 2WD

NSPCC Contact the Whistleblowing Advice Line
Call 0800 028 0285 or Email help@nspcc.org.uk

Ratios

To ensure the safety and the wellbeing of the children in our setting we will ensure we follow the current recommended ratios and qualifications for the safe care of children as set out in the statutory framework for the Early Years Foundation Stage in the setting, as at September 2023 these were as follows:

For Early Years providers other than childminders:

- For children under two: one member of staff to every three children
- At least one member of staff within the group will hold a full and relevant level 3 qualification and will have suitable experience of working with children under two
- For children aged two: one member of staff for every five children.
- At least one member of staff will hold a relevant level 3 qualification. At least half of all other staff in the group will hold a relevant level 2 qualification
- For children aged three where there is a suitably qualified level 6 or persons with qualified teacher status working directly with the children the ratio can be one member of staff for each thirteen children.
- For children aged three where there is no suitably qualified level 6 or persons with qualified there will be one member of staff for every eight children. At least one member of staff will hold a full and relevant level 3 qualification and at least half will hold a relevant level 2 qualification
- Students and volunteers on long-term placement aged 17 years or over and staff working as apprentices in early education aged 16 or over may only be included in the ratios if the manager is satisfied that they are competent and responsible

- At least one person who has a current Paediatric First Aid (PFA) will always be on the premises and available when children are present, and will accompany children when they go on outings

**To check qualifications are full and relevant <https://www.gov.uk/guidance/early-years-qualifications-finder>

Appendix 1. Thresholds for social care intervention

Level 1 – Universal

Universal services are key partners in the delivery of a preventative approach to improving outcomes for children and young people. Services delivered at the universal level meet the needs of the majority of children and young people. These ‘universal services’ are those services (sometimes also referred to as mainstream services) that are provided to or are routinely available to, all children and their families. Universal services are designed to meet the sorts of needs that should enhance the lives and wellbeing of all our children.

Most children will not require intervention beyond the universal level of support within the borough available to all children – these will not require social care intervention.

Level 2 – Vulnerable

Vulnerable needs requiring targeted support, when the needs of the child can no longer be fully met within Universal provision. These children and their families may have low level additional needs that are likely to be short term and that are sometimes known but unmet. In this context, a Common Assessment should be completed with the family and child or young person. At this point the Team around the Child and Family processes should commence if support is required from more than one professional service. The team is coordinated by a Lead Professional to provide a consistent link for the family.

WF [Early Help and Threshold Criteria for Intervention](#) lays out the agreed thresholds for intervention at different levels of risk to children and young people within Waltham Forest. Early Help intervention requires parental consent and engagement. Providing early help is more effective in promoting the welfare of children than reacting later. The aim is to prevent further issues arising and current issues escalating.

In cases where consent is not given for an early help assessment, practitioners should consider how the needs of the child might be met. If at any time it is considered that the child may be a child in need, or that the child has suffered significant harm or is likely to do so, a referral should be made immediately to [MASH](#).

Level 3 – Complex

For children and young people whose needs are complex, the lead professional will be a social worker who will work closely with the child and family to ensure a single assessment and deliver the right support and intervention. These children will be eligible for social care services, outlined in a Children in Need plan, because they are at risk of moving to a higher threshold for intervention from specialist services. In most cases the social worker will act as the lead professional to coordinate the work of all agencies with the child and family. “Asset” is the risk assessment tool used to assess the likelihood of a Young Person going on to commit an offence and to identify what areas of work need to be undertaken to reduce this risk.

Section 17 of the Children Act 1989 places a general duty on every Local Authority to safeguard and promote the welfare of children living within their area who are in need and to promote the upbringing of such children, wherever possible by their families, through providing an appropriate range of services. A child in need is defined under the Children Act 1989 as a child who is unlikely to achieve or maintain a reasonable level of health or development, or whose health and development is likely to be significantly or further impaired, without the provision of services; or a child who is disabled. Local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989.

Level 4 – Acute

Acute Specialist Services are required where the needs of the child or young person are so great that statutory and /or specialist help and intervention is required to keep them safe or to ensure their continued development. These span the multi-agency partnership including; Children’s Social Care, Child and Adolescent Mental Health Services and Level 3 and 4 Youth Offending Services.

By effective integrated working in Waltham Forest, we aim to reduce the escalation of those children and families requiring targeted support to prevent more children requiring specialist and statutory interventions. To ensure the right support, in the right place at the right time.

In Waltham Forest we are developing a confident integrated workforce with a common core of knowledge and understanding to support and intervene effectively to safeguard children young people and families.

A very small number of children for whom targeted support will not be sufficient will have more significant and acute needs which meet the threshold for Stage 4 intervention. This includes children who are experiencing significant harm or where there is a likelihood of significant harm and children at risk of removal from home.

s47 or Child Protection intervention is the process for children where there is reasonable cause to suspect that the child is suffering or likely to suffer significant harm (this includes immediate protection for children at serious risk of harm).

Appendix 2

Local Support and Key Safeguarding contacts in Waltham Forest

All members of staff at WMS are made aware of local support available:

Name	Agency	Contact details
Police Referral Desk	Metropolitan Police Child Abuse & Investigation Team (CAIT)	020 8345 3633 020 8345 3693
