

WALTHAMSTOW MONTESSORI SCHOOL

Accessibility Plan 2020-2023

WMS is a small independent school with strong values and high standards of care and education.

Pupils thrive and want to do their best.

We are committed to giving all of our children every opportunity to achieve everything they can within the Equality Act 2010, by ensuring that our pupils, staff and visitors feel valued, cared for and listened to.

We offer a broad and balanced curriculum and have high expectations for all children.

The achievements, attitudes and well-being of all of our children matter.

Purpose of this plan:

This plan is to show how Walthamstow Montessori School intends, over a period of time, to increase the accessibility of our school for everyone regardless of any disability. This extends to pupils, staff, parents/carers and visitors.

Definition of disability:

A person has a disability if he/she has a physical or mental impairment that has a substantial and long-term adverse affect on his/her ability to carry out normal day-to-day activities.

Contextual Information:

WMS is located in 2 separate buildings in Walthamstow. The lower school is in a single storey building which contains a large open-plan classroom, 2 other classrooms, a kitchen, office, meeting room, store rooms and toilets, there is also a rear garden.

It is spacious and all on one level. Wide doorways allow for ease of access between rooms. There is a disabled access toilet on site.

The upper school is located to the rear ground floor area of St John's church, a late Victorian building which was converted to provide large rooms underneath the church areas.

Access without steps is possible. There is one internal step in the building. A ramp is available.

The upper school building contains 3 large classrooms, an office and toilets and a rear garden.

A disabled access toilet is on site.

At present we have no wheelchair dependent pupils, parents or members of staff. We have one member of staff with a disability.

Increasing access for disabled pupils to the school curriculum:

It is a core value of the school that all children are enabled to participate fully in the broader life of the school.

We intend to increase access to the curriculum for pupils with a physical disability and/or sensory impairments.

We promote and support disability awareness and equality for all disabled pupils, staff, parents, carers and visitors to our school.

Our Accessibility Plan (at the end of this document) explains how we are doing this and what we plan to do.

We will expand the curriculum, as needed, to ensure that pupils with a disability are as equally prepared for life as the able-bodied pupils. This includes teaching and learning as well as the wider curriculum of the school such as school clubs, assemblies, and visits.

This policy was adopted on dated: 1 September 2017
